HE GOES UNDER TWO NAMES

Man Lives For Six Years Without His Dual Existence Becoming Known—Two Families Live In Same Town.

KANSAS CITY, July 8.—Frankie Luther, part owner of a manufacturing plant in this city, who died suddenly yesterday after living a double life for six years, preserved two separate identities without his closest friends or business associates being aware of it, according to investigations of the police. As Frankie Luther, he lived with a wife at 313 West Thirteenth street. As Frank Hullman, he lived with Mrs. Lillian Hullman at 2001 Mongoll avenue, three miles away in another home. Hullman was understood to be a traveling salesman whose business took him away from his home much of the time. Luther died in the Hullman house from an overdose of morphine, which it is not believed was taken with suicidal intent.

CANNERYMEN TO BUILD NEW TOWN

Lower Sound Fishing Men Pool Interests At Lopez Island.

PORT TOWNSEND, July 8.—A number of cannerymen and fishtrap operators of the lower Sound have pooled interests under the leadership of E. A. Sims, an extensive operator of this city, and are planning the establishment of a common center where they may be supplied. The plan involves the building of a new town, which for its nucleus will have such industries as a shipyard, a web or fishnet yard, machine shops and general supply depot.

Several sites are under consideration, but Lopez Island, in the San Juan group, midway between Port Townsend and Bellingham, is favored by Mr. Sims. At least \$150,000 will be expended at the start, but the parties interested figure that half this sum can be saved the first year by getting away from paying middlemen's profits.

Mrs. Sims is one of the heaviest operators on the Sound, being the owner of half a dozen traps and lessee of two canneries, one at Blaine and one at the Cook cannery at this point. The latter will be run for the fall catch, while the plant at Blaine is now in operation. The saving to Mr. Sims' interests alone through the new plan will involve many thousands of dollars.

A by-product plant which will manufacture crescents, tar and numerous other products is to be established here in the near future, a great deal of material being at hand within a radius of a few miles of this city.

WANTS TO EXPOSE ITS ROTTENNESS

State Official at Olympia Wants It Made Warm for Mutual Reserve Co.

OLYMPIA, Wash., July 8.—"I consider it my duty as a state official to expose the rottenness of this company, and its violation of the state laws, and am here at my own expense to testify in performance of that duty and to see that the Insurance Department does its duty, too," declared state coal mine inspector, D. C. Botting, on the stand this morning at the hearing before the Insurance Department, of charges that the Mutual Reserve Insurance Company of New York violated the anti-rebate laws, and should be barred from doing business in Washington. Botting and other witnesses testified that each had been given a policy in the company at low rates and had been told that each would be given a commission on all other business the agent was able to secure through their efforts.

Botting and several of his friends were led to believe that each had the sole commission and discovered the facts on checking up. The hearing has a peculiar interest, as agents of the company, in the past have made considerable use of a letter from the Insurance Department, approving the company.

TRANSPORT THOMAS FLOATED.

WASHINGTON, July 8.—The navy department is advised that the transport Thomas was floated at high tide yesterday.

NEW YORK, July 8.—An unidentified man killed himself in an unusual fashion in the Bronx today to the horror of a number of persons who happened to be in St. Mary's Park. After pacing the sidewalk for some time in evident mental distress, he drove his head against a thick plate of glass in front of a saloon until it was shivered from top to bottom. Then, with a big fragment of the broken pane he cut his throat. A policeman summoned an ambulance, but the man bled to death before it arrived.

TROUBLES FOR RUSSIA

Appeals to Revolt Are Not Diminished.

RUSSIA IN A TURMOIL

Police Authorities Confiscate New Poem Entitled the "New Marsallise."

ROJESTVENSKY TRIAL IS ON

Investigation Into the Actions of Captain Baraboff of the Destroyer Bedovi Shows He Was Base Coward.

ST. PETERSBURG, July 8.—The "Twentieth Century," formerly the "Russ," has published a second poem by M. Amfiteatroff, one of Russia's brilliant journalist poets, entitled the "New Marsallise." The paper was confiscated and probably will be suppressed. The verses are dedicated to Maxim Gorky and virtually appeal to an armed revolt. The refrain goes: "Rise to your rights, people, array yourself under the red banner." The censors have seized an anti-Semite brochure entitled "Down with amnesty" and the authors held for trial. This brochure is especially violent against members of the lower house, and calls them fools and says they have sold themselves to the Jews. News is received from Bialystok to the effect that the Jews are in such a condition of panic that they are selling all their property and preparing to emigrate to America. Testimony in the case of Admiral Rojestsvensky being tried by a court martial, for the surrender of the destroyer Bedovi, has been submitted and the address of the counsel will probably be complete tomorrow. The testimony brought out the facts of the cold-blooded manner in which Captain Baraboff of the Bedovi abandoned the crews of the battleship Oslabio, Kniaz Suvaroff, and the Alexander III to death by drowning, refusing to aid a single person. The President of the Court virtually called Baraboff a coward in open session. Rojestsvensky is the only defendant emerging from the investigation with any credit. He submitted his case in lieu of pleading by counsel in the following words: "Sirs, Russia's fleet has been humiliated; the people have confidence in you. I wait my punishment."

PUEBLO, Colo., July 8.—A special to the Chieftain from Buena Vista says an attempt to escape from the State reformatory this afternoon resulted in the death of two prison bloodhounds and the capture of the fugitives. Leslie Eastham and W. E. Ryan by a ruse walked past the guard without interference. Eastham, was garbed in the bookkeeper's clothes and heavily armed. A chase soon followed, resulting in their capture, after several shots were exchanged, resulting in the killing of both dogs, but no other effect. Eastham is a protege of Judge Lindsay.

AFTER BIG FISH

Government Will Prosecute Railroad Men.

OBSERVE GREAT PRECAUTION

Careful Not to Compel Officials to Testify at Inter-State Commerce Hearings, So They Can Claim Immunity.

CLEVELAND, July 8.—The federal officials announce today that G. J. Grammar, traffic manager of the New Central lines, west of Buffalo, will not be called as a witness before the grand jury tomorrow to ferret out the violators of the inter-state commerce laws, because the officials do not wish to be put in a position where any high railroad official can claim immunity from prosecution, because the government compelled him to give testimony. The action of today reveals definitely the plan of the government officials to strike at some of the biggest and most influential railway men in the country.

Morton succeeded in reaching the police station where he was given protection. Just as the mob was preparing an assault on the building a detail of police rescued the negro and he was taken to the county jail. During the pursuit a number of the mob fired at the officers.

NOT EXPECTED TO LIVE

Judge Emory Cannot Survive Fatal Shots.

YOUTH IS IN PRISON

Young Man Who Shot Seattle Judge Believed to Be Insane.

WANTED TO KILL THE GIRL

Evidence Shows Youth Was Insane Over His Infatuation For the Girl—Thompson's Mother Not Told of the Affair.

SEATTLE, Judge 8.—Judge Gordon Meade Emory, who was shot by a love infatuated youth is not expected to live through the night. One of the bullets from the crazed youth's gun penetrated both lungs and the judge's death is expected within a few hours. The shooting caused the greatest interest on account of the prominence of both families. There are few better known men in Washington than Judge Emory and the father of the lad, who fired the fatal shots has a reputation as a lawyer, orator and writer, more than state wide. Chester Thompson who did the shooting is now in the county jail. Friends believe he was insane at the time of the affair. Developments tend to the belief her and if possible himself. He is believed that he was in search of the girl to kill lived to have watched her home until she went to the home of Judge Emory, her uncle, which is next door, and then followed her in. When the judge attempted to stop him Thompson fired. The mother of the young man is an invalid and has not been informed of the affair. Her physician stated that it would be fatal to her. Will H. Thompson, father of the young man, is the author of the famous poem, "Hide Tide at Gettysburg" and the late Maurice Thompson, the boy's uncle wrote "Alice of Old Vincennes."

GOVERNOR KUEHTER IS RECALLED.

ST. PETERSBURG, July 8.—Governor Kuehter of Grodno, within whose jurisdiction is the town of Bialystok has been recalled. Serious allegations regarding the recent massacres have been brought against him.

BIRDS ENEMIES OF THE COTTON BOLL WEEVIL

WASHINGTON, July 8.—"Birds That Eat the Cotton Boll Weevil, Report of Progress," is the title of the latest publication issued by the Department of Agriculture. Arthur H. Howell, the author, has discovered that 28 species of birds eat the pesky cotton varmint. Mr. Howell collected and examined the stomachs of 62 species of birds, Kildeer, quail, night hawks, pheas, blackbirds, meadow larks, orioles sparrows, cardinals, mocking birds and wrens all are partial to a diet of weevils but by all odds the greatest destroyers of the pests are orioles and night hawks. In the menu of the oriole, especially, the boll weevil occupies the place of fish, soup, meat, salad and pie. On this account, Mr. Mowell believes that it is a crime, little less heinous than homicide to kill an oriole.

USES FRENCH DUKE'S NAME.

Suit for Damages in Court is Decided in Actress' Favor.

PARIS, July 8.—A case which will have much interest in the United States, where chorus girls choose all sorts and conditions of stage names, has just been decided here. An actress, who in private life is Mlle. Jarve, adopted the name of "De Trevisse." She appeared in a sketch called "Fleur de Peau." Some time ago the Duc de Trevisse noticed the name on three-sheet posters all over the town. He considered that the name and "Fleur de Peau" did not go well together, and so brought an action. The actress and the manager of the music hall were both made defendants.

The Duke asked for an order prohibiting the use of his name and demanded \$100 per day as damages for the time it had already been used. The actress won, largely on the ground that de Trevisse was common property, inasmuch as it was the name of a street, a town, and a family.

Cloudbursts and Lightning Create Havoc in Colorado.

STREAMS FLOOD THE COUNTRY

Walls of Water Rush Down Dry Beds of Creeks and Cause Great Damage to Property—Boulder is Flooded.

DENVER, July 8.—Cloudbursts and lightning did considerable damage in this section of the state today. In Denver a wall of water ten feet high came down a dry creek carrying away foot bridges and damaging the bridge of the Denver and Inter-Mountain railroad. Two little boys, fishing under the bridge had a narrow escape.

In Boulder, a wall of water six feet high came out of Sunshine canon and spread itself over the streets in that city. Considerable damage was done. There was damage also at Florence, Pueblo, and Rockvale.

VERSES OF SOLDIER POET LANDS HIM INTO TROUBLE

WASHINGTON, July 8.—The machinery of the War Department has been brought into action to rid the service of a poet. A. L. Pierce, an enlisted man, now doing duty in the army in the Philippines. Price wrote about an officer who is alleged to have ordered the band to play "Always in the Way" at a marine's funeral at Olongapo, P. I., and which action is now being investigated by the government. Price found soldier life in the Philippines rather irksome, so he began to write doggerel for the papers. When he heard of the incident at the marine's funeral he turned loose, and his production was printed in the Cable News at Manila.

The immediate result was on investigation and exonerated the officer in charge of the funeral. The Price was charged with violation of the thirty-second and sixty-second articles of war, in that he wrote scurrilous things about a member of another branch of the service. He was court-martialed and the case then sent to the department commander, Gen. Weston, who has forwarded the papers to Washington.
